RE: CUSTODIAL DETENTION CARDS

Dear Sir:

There follows hereafter a list of the individuals for whom active custodial detention cards are maintained at the Bureau together with the address of each individual. This list does not include alien enemies or individuals who have been inducted into the armed forces inasmuch as these cards should have been placed in the investigative files.

It is desired that you check this list against your confidential custodial detention card file in order to determine whether any discrepancy exists between your records and the records maintained at the Bureau. In the event such a discrepancy exists, the Bureau should be advised by separate letter bearing the appropriate caption for each case.

In order that this list may be accurate, it is believed that the full name and correct address in each case should be listed on the custodial detention card. Therefore, wherever the full name has not as yet been ascertained, an effort should be made to obtain this information. It is also noted in several instances in the above list that the address listed is that of a post office box. Also in some instances,

Mr. Tolson merely the name of the town is given as the address. Obviously a more accurate address should be obtained in order that the list may be of value. With regard to those names listed under Unknown Citizenship Mr. Coffey you should obtain their citizenship status immediately and advise the Bureau in order that these individuals may be carried under their correct status.

Replying to Bureau letter dated February 18, 1943, File No. 100-2-18, relative to teletype report in this office dated February 4, 1943, reporting the number of aliens apprehended under the Alien Enemy Control Program, I desire to state that the teletype in question erroneously reported twenty-six German aliens arrested, whereas, but twenty-five arrests had been made of German aliens, it having been later discovered that MOSES WECHSLER, while arrested as a German alien was later determined to be a citizen of the United States. The report for February 4, 1943 should, therefore, be corrected to show that twenty-five German aliens had been arrested in this Field Division and the teletype report in this office dated January 7, 1943 should also be corrected accordingly.

It will be noted that the teletype reports dated January 7, 1943 and February 4, 1943 were also in error in reporting twenty-one Italian enemy aliens having been arrested, whereas, but seventeen Italian enemy aliens had been arrested in addition to four Italians who were later determined to be citizens of the United States, who were arrested and subsequently released.

RE: INTERNAL SECURITY
ALIEN ENEMY CONTROL

Dear Sir:

Reference is made to your teletype dated February 4, 1943, reporting the number of aliens apprehended under the Alien Enemy Control Program.

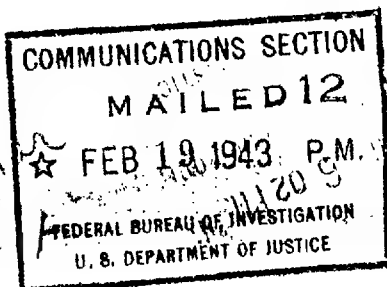

It is noted that you report the apprehension of twenty-six German aliens although the arrest registers submitted by your office reflect the apprehension of one United States citizen of German sympathies, namely Moses Wechsler with aliases, arrest number G-4, in addition to twenty-five German aliens. In the event the information reflected on the arrest registers is correct, you should revise your next monthly report accordingly.

Your attention is also directed to Section B of Bureau Bulletin No. 69, dated November 25, 1942, in which you were informed that you should furnish the monthly recapitulation of alien enemy apprehensions by letter. It is desired that you follow this procedure in the future.

MEMORANDUM FOR H. H. H. H.

Mr. Gabel Phillips of Mr. Gilford's office telephoned at 2:40 P.M., at which time I verified the fact that the primary responsibility for the apprehension of enemy aliens in Hawaii rests with the military authorities under martial law and that the FBI was a cooperating agency.

He stated that in this connection he had received an inquiry from Time Magazine on a story which recently appeared in the New York Times indicating there was some dissatisfaction with the large number of Jap Americans employed in the territorial guards and he wanted to advise that this was a matter not under the direct jurisdiction of the Department.

Shortly prior to this call I furnished Mr. Phillips with the latest figures on the number of enemy aliens taken into custody.

Respectfully,

Re: ~~X~~ Movement of Enemy Aliens from
Honolulu to Adjacent Island

Dear Sir:

Reference is made to the telephone conversation with you on the evening of December 20, 1941 in which you asked me if I knew anything about a plan to move a large group of aliens from Honolulu to some adjacent island, as the Attorney General had spoken to you about it in connection with working out what arrangements might be in mind with the Secretary of War.

So far as I can ascertain there is no project of that kind on foot in Honolulu. I am satisfied I would have been advised of such a plan had it been contemplated. I know that there is no such thing in mind at this time. All of the enemy aliens who have been apprehended on the Island of Oahu have been confined at the Immigration Station in Honolulu and on Sand Island, across the bay from the Immigration Station. This is the island that was formerly used by the Public Health Service. All of the enemy aliens apprehended on the Island of Hawaii have been confined by the military authorities at Kilauea Military Camp. The enemy aliens apprehended on the Islands of Maui, Lanai and Molokai have been confined by the military authorities on the Island of Maui. Those apprehended on the Island of Kauai are confined by the military authorities on the Island of Kauai.

It is not contemplated at the present time that these individuals will be concentrated at any one place, and they will be left at their present place of confinement.

I called upon Assistant Secretary of War Bundy this morning. I explained to Mr. Bundy that the Attorney General had talked to you about the matter of removing certain Japanese aliens from the Hawaiian Islands and that you had instructed me to ascertain the facts in order that the FBI might know what assistance could be rendered.

Mr. Bundy stated that at the Cabinet meeting several days ago the President had told the Secretary of War that he, the President, desired to have all of the Japanese aliens in the Hawaiian Islands interned at once. Bundy said that the President had mentioned particularly removing all of the Japanese aliens from the islands of Oahu and Hawaii, possibly to some other island in the Hawaiian group. I told Mr. Bundy that apparently someone had received the impression that the program contemplated the evacuation of certain Japanese from the Hawaiian Islands to the mainland. Bundy, who did not appear to have much knowledge of what this was all about, left the office, apparently to talk to the Secretary of War, and returned a few minutes later, and after checking with various officers in the War Department by telephone, advised that the present plan of the War Department contemplated leaving the matter in its entirety in the hands of the Commanding General of the Hawaiian Islands.

Mr. Bundy stated that there was consequently no action or assistance which could be rendered by the Bureau at this time, in view of the War Department's plan, apparently in disregard of what the President apparently said at the Cabinet meeting, to allow the commanding general to do as he saw fit with the Japanese aliens in the Hawaiian Islands.

Respectfully,

MEMORANDUM FOR THE DIRECTOR

In connection with the inquiry that was made concerning the newspaper article in the Los Angeles papers indicating that SAC Shivers had "the power to issue warrants", I desire to advise that in Shivers's letter of December 12, 1941, with reference to the air raids on the Island of Oahu he states as follows:

"In connection with custodial detention and internment, I want the Bureau to know that the Commanding General of the Hawaiian Department, Lieutenant General Walter C. Short, through the Military Governor, has issued an order to the Military Department, the Naval Department and the Police Department and all other interested agencies that no person will be picked up for internment or custodial detention without my personal approval and that no person will be released from custodial detention or internment without my personal approval. This, as you see, gives the Bureau the control of the enemy aliens in the Hawaiian Islands. The Commanding General was motivated in this action because he felt and believed that the Federal Bureau of Investigation here knew more about the Japanese aliens and the Japanese activities than any other individual, group, organization or department in the Hawaiian Islands."

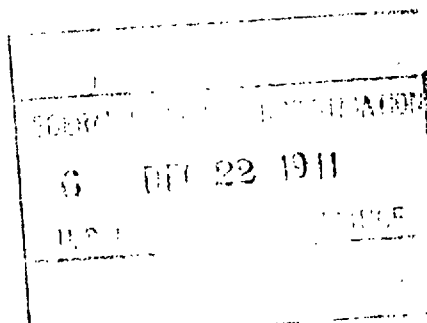

It is noted from the above that there is no mention made of any authority having been given to Shivers or being exercised by him with reference to the signing or issuance of warrants, rather the above would indicate that he is consulted in all cases prior to the arrest or release of any aliens.

A teletype is being attached hereto requesting Shivers to advise whether he has been given authority to sign and issue warrants.

Respectfully,

D. M. Ladd

Re: MILITARY WARRANTS FOR CUMULATIVE DETENTION.

Dear Sir:

Reference is made to Bureau radiogram of December 19, 1941 requesting advice as to whether or not I have been given authority to issue and sign warrants, and whether such authority had been accepted and used by me.

In response to this inquiry, I advise the Bureau that a Memorandum was issued on December 12, 1941 by command of Lt. General SHORT, Commanding General, Hawaiian Department, which conferred authority on me to issue and sign warrants, but that I have not exercised that authority. This Memorandum reads as follows: "December 12, 1941

By virtue of the power vested in me by the Secretary of War, as set forth in "Radio #16, Hawaiian Department, December 10, 1941," the following persons may sign warrants of arrests: R. L. SHIVERS, Special Agent in Charge, Federal Bureau of Investigation, Honolulu, T. H.; The Provost Marshal, Hawaiian Department; Chief of Police, City and County of Honolulu, T. H.; Chief of Police, City and County of Maui; Sheriff, City and County of Kauai; Sheriff, County of Hawaii; and any member of the General Staff Corps, United States Army, and the Department Judge Advocate, Hawaiian Department.

By Command of Lt. General SHORT
Signed: ROBERT H. DUNLAP,
Colonel,
Adjutant General's Department,
Adjutant General."

DECLASSIFIED BY 6080 Ted/AP
ON 3-21-77

I was not aware that this memorandum was to be published, conferring authority on me to sign warrants of arrests. I have not exercised such authority and it is not necessary for me to exercise such authority since these warrants can just as conveniently be signed by Lt. Colonel GEORGE W. BICKNELL, G-2, Assistant Chief of Staff, Contact Officer, and whose office is located adjacent to mine in the Dillingham Building.

Mr. Shivers stated that he desired that as soon as the list of names of those persons arrested for custodial detention was received by the Bureau, that a copy be furnished to the Military Intelligence Division inasmuch as MID in Honolulu was depending upon the FBI in Washington to furnish MID in Washington this list. Re: Custodial Detention and Apprehension of
Japanese, German and Italian Aliens and
Citizens of Those Races

Dear Sir:

As soon as martial law was declared in Honolulu on December 7, 1941, by the Honorable JOSEPH M. FORD, Governor of the Territory of Hawaii, Lieutenant General MALCOLM C. SMITH, Commander of the Hawaiian Department, through the Military Governor, Lieutenant Colonel M. M. M., who had been appointed and designated as Military Governor by General SMITH, General SMITH directed through the Military Governor and personally that all enemy alien Japanese and citizens of that ancestry be apprehended and interned on whom the Federal Bureau of Investigation had submitted custodial detention letters. Pursuant to this direction, and with your approval, Plan 2, relating to the apprehension of Japanese aliens, was put into effect as outlined in my letter to you on November 22, 1941.

On December 1, 1941, detailed plans and arrangements had been completed for the apprehension of all these aliens. Memoranda of directions had been drawn up for the Special Agents who were to direct and supervise these pick-ups. As an example of the instructions which had been prepared several days before the raid, I quote the instructions issued to Special Agent J. STELLING ADAMS, who was in command of Squad 5:

TO SPECIAL AGENT J. S. ADAMS:

You are in charge of Squad 5. You will have with you Special Agent S. H. TON, Military Intelligence, and Police Officer JACK STONE. You will arrange your meeting point and time and will proceed in two cars, at least one of which will be equipped with two-way radio so as to arrive at the Lahukua Post Office not later than _____ time, where you will be met by an Army truck with Military Police guards. The truck will not go to the scene of the arrests but the prisoners will be brought to the truck and receipt obtained from the M.P. in charge of the truck. You will direct the movements of the truck so as to most expeditiously complete your assignment, and when all arrests have been made, you will direct the truck to proceed to the Immigration Station in Honolulu

JAN 30 1942

Director

December 17, 1941

to deliver the prisoners to the Military Police at the Immigration Station for internment.

The plan drawn up for the apprehension of these aliens was according to the locations of police beats in the City of Honolulu, as well as in the territory on the Island of Oahu outside of the City of Honolulu. Thirteen squads were necessary to effect the apprehension of these aliens. Six squads operated outside of the City of Honolulu and seven squads operated in the City of Honolulu. Instructions similar to those quoted above had been drawn up, as I say, around December 1, 1941. The names of the Special Agent and the other officers to participate in these raids had been inserted. The memoranda had been kept in my personal possession and immediately when the order from the Military Governor to apprehend these aliens was issued I was able, with these previous preparations, to initiate the program immediately. We were delayed approximately one hour awaiting transportation which according to the plan was to be furnished by the Provost Marshal. It was found that the Provost Marshal was not able to furnish this transportation and in the confusion existing at that time it was believed that he would not be able to furnish the transportation. I, therefore, ordered the agents to use the Bureau's and their personal cars and requested assistance from Chief of Police H. A. HARRISON of Honolulu to furnish this office a sufficient number of police officers and cars to carry out the apprehension of these aliens. As I say, there were thirteen squads in all with an average of three men to the squad. In some of the districts in Honolulu it was necessary to augment these squads to the extent that in making the entire pick-up approximately 50 individuals participated. All of the agents at the Honolulu Office except Special Agent FLINN participated. The remaining personnel was recruited from the corps of intelligence police and the Honolulu Police Department.

The apprehension of these aliens went off much more smoothly by the use of personal automobiles than it would have if we had depended on the Army to furnish transportation, as provided for in our plan. Three by five cards had been prepared previously on every custodial detention subject who was to be picked up, showing his name, address and citizenship status. It was therefore only necessary to give to each squad the cards on the subjects to be picked up in the districts to which they were assigned. These cards had been stamped on the back with the statement, "Received custody of the person named on the reverse side." I personally assigned squads to each precinct and beat and personally gave them the cards on the individuals to be apprehended, and personally gave them instructions regarding the apprehensions of these individuals and their delivery to the Immigration Station so that the program could be expeditiously executed.

Director

December 17, 1941

As the individuals were picked up by the various squads, they were taken to the Immigration Station, where they were receipted for on the reverse side of the card by the Military Police. The cards were then returned to this office.

The names of the persons on the outlying islands were telephoned by the Military Intelligence Department to their representatives on the Islands of Hawaii, Maui, Kauai, Molokai and Lanai. The apprehension of the custodial detention subjects on the Island of Hawaii was effected by the military authorities and the local police officers, under the supervision of Special Agents DAVID M. WOODLAW, JAMES A. LILL and DAVID R. CURTIS. The persons apprehended on the Island of Hawaii are being detained at the Mulauea Military Camp, Mulauea, Hawaii.

The persons to be apprehended on the Island of Kauai were furnished by G-2, Honolulu, to Lieutenant Colonel ROBERT J. FITZGERALD at Lihue, Kauai, who is in charge of the military forces on that island. Lieutenant Colonel FITZGERALD transmitted these names to Special Agents HASTON C. BROWN and T. H. McLEOD, who were on that island at that time. These two agents, with the assistance of local police officers in some instances, apprehended all of the persons on that island.

The Military Intelligence, i.e., G-2, handled the apprehension of these aliens on the Islands of Maui, Molokai and Lanai, as there were no agents then on these islands or means available to send them there. Fifty-one persons were apprehended on the Island of Maui, four on the Island of Molokai and two on the Island of Lanai. With these exceptions, the Bureau, through its agents, directed, supervised and actually apprehended all of the rest.

On December 8, 1941, at the direction of the Military Governor, this office apprehended the German and Italian aliens and citizens of those ancestries on whom custodial detention memoranda had been submitted. According to information furnished you in my letter of November 17, 1941, I gave information to the effect that the Army authorities here had decided to apprehend all German and Italian aliens regardless of the fact that custodial detention letters may not have been submitted on them. However, at the time of their apprehension, custodial letters had been submitted or were being prepared on all the German and Italian aliens in the Territory of Hawaii. The apprehension of these classifications was handled by the Federal Bureau of Investigation in the same manner as the Japanese.

Director

December 17, 1941

The Japanese aliens and citizens of that ancestry were picked up within a period of three hours on December 7, 1941. The Italian and Italian aliens and citizens of those ancestries were picked up in two hours on December 8, 1941.

Subsequently, on December 7 and 8, 1941, additional individuals of Japanese ancestry have been apprehended and placed in internment as a result of information furnished subsequent to the raid by citizens of Japanese ancestry who have been furnishing information to this office and also as a result of our own investigative efforts and investigations conducted by the corps of intelligence police under 4-2.

The Military Governor, at the direction of the Commanding General, Lieutenant General Marshall C. Smith, issued an order that no person would be placed in internment and that no person would be released from internment without my personal approval. The result of this is that no person can now be placed in internment by the Army or Navy Agency without my personal approval and no person can be released from internment without my personal approval.

The board set up for hearings before which the interned enemy aliens are brought consists of Army and civilian representatives. Regardless of the findings of the board, they cannot release the subject without the approval of the Commanding General and/or the Military Governor. If the board orders the release of the subject, he cannot be released without the approval of the Military Governor or the Commanding General. If the Military Governor and the Commanding General decline to order his release, the subject must then remain in custody pending an appeal to the Secretary of War. The Commanding General and the Military Governor have stated that they will not release anyone, even though the board has ordered them released, unless such action is approved by me.

There will be other apprehensions of alien Japanese and citizens of that ancestry as current investigations develop information to justify it. Seven individuals were apprehended today and placed in internment as a result of investigations by this office. Investigation indicated that these seven individuals are all employed by the Yokohama Specie Bank and that on or about December 1, 1941, they had arranged for permission to play golf at the Naitase Country Club at eight o'clock Sunday morning, December 7, 1941. These people had not played golf, so far as we were able to ascertain, before this time as far back as April of this year. The indications are that they probably knew of the air raid which was to come on Sunday morning and for that reason were trying to arrange alibis for their presence. This matter will be the subject of a separate investigative report.

Director

December 17, 1941

There is attached hereto a complete list of all persons apprehended who are in internment at the present time. Several of the German and Italian aliens have been released because of their sex, age and other circumstances which make such action necessary and imperative.

Very truly yours,

R. L. Shivers

THE DIRECTOR

SAC Shivers called from Honolulu and advised that the Japanese Consul had received the following telegram from the Spanish Consul at San Francisco: "To Spain in charge Japanese interests United States stop please prepare inventory and other formalities delivery Consulates."

I advised Shivers that the Spanish Consulates are taking over the various Japanese Consulates throughout the country at the present time. He said that there was no Spanish Consul at Honolulu, but that he could see no objection to permitting the Japanese Consul to prepare the inventory and sending it to the Spanish Consul at San Francisco. I told him that we would have no objection to this if he and the Military Governor have none.

Shivers advised that each day they send a list of the persons taken into custodial detention to the Bureau, divided as to nationalities and requested that this list be furnished to MID here in Washington as they also wanted it, and this method would save duplication of effort. I advised him we would send it over to MID each day as soon as it is received.

Mr. Shivers stated that he was sending another package to the Bureau and that it would arrive in San Francisco tomorrow morning, December 19, 1941. He stated that the same arrangements should be made for picking up this package as were made for picking up the package which was sent from Honolulu to San Francisco a few days ago, except that it would not be necessary to have a man

bring it from San Francisco to Washington, but that it could be placed in the mails at San Francisco and mailed in. I accordingly telephonically contacted SAC Pieper and furnished these instructions to him. He stated that he would have this package picked up and mailed to the Bureau immediately upon its receipt. I instructed him specifically to call me when he received the package and when he mailed it from San Francisco. This will be furnished to you as soon as it is received.

Mr. Shivers asked me to call your attention to the fact that the brief which you had requested him to prepare has been prepared and is ready.

He stated that you would know what he is referring to. This was apparently in connection with the contemplated visit to the Island on the part of Justice Roberts and Committee.

I told Shivers that it was my understanding that Gurnea would be coming over.

MEMORANDUM FOR THE ATTORNEY GENERAL

In compliance with your request of Saturday evening, I called General Gullion, The Judge Advocate General of the Army, and told him that I was calling at your request. I advised him that the Secretary of War had communicated with you relative to the proposed action to be taken concerning aliens in Hawaii. General Gullion informed me that he had no knowledge of what this matter was. He stated there had been nothing brought to his attention relative to any such contemplated action, and in so far as he knew the situation in the Hawaiian Islands was being adequately and efficiently handled by the Army, Navy and the FBI. He said he had no word from his representatives in Hawaii.

I told General Gullion that should he receive any word or should any action be contemplated by the Army relative to alien matters, I wanted him to feel at liberty to call upon me as I wanted to cooperate and advise with him about the situation. He assured me he would.

Re: INTERNAL SECURITY.
CUSTODIAL DETENTION LIST -
JAPANESE, GERMAN AND ITALIAN ALIENS.

Dear Sir:

Reference is made to the Bureau letter in the above-captioned matter dated November 25, 1941, concerning the status of the custodial detention project and the submission of information relative to Japanese, German and Italian aliens who are considered dangerous and whose removal from society in the event of war would be required in the public interest.

Concerning the comment on the instructions contained in a radiogram dated November 20, 1941, to submit a list of all German and Italian aliens recommended for custodial detention, I have forwarded data in compliance with these instructions by letter under the caption, "INTERNAL SECURITY, Custodial Detention, German and Italian Aliens," dated November 17, 1941, which was mailed on the first available clipper from these islands. This letter contained as an enclosure a memorandum approved by the Commanding General of the Hawaiian Department of the United States Army, outlining the procedure for the custodial detention of these aliens in the event of a declaration of war involving the United States with Germany and Italy. In addition to the names of the aliens who are considered dangerous and for whom custodial memoranda had been prepared, there were also listed American citizens of German descent of similar classification. These names were selected by the military authorities in collaboration with this office and represent the persons of German and Italian tendencies for whom custodial detention has been recommended by this field division and represent the list described in the letter of reference.

This list includes all of the known German aliens residing in the Territory of Hawaii which have been compiled from the alien registration data furnished this office by the Bureau, which it received from the Bureau of Immigration, and which this office obtained from the

3-21-17 6080 Led TAP

Director

12/4/41

records of the Immigration and Naturalization Service in Honolulu.

This information has been furnished by this office to the office of G-2 in Honolulu. Since the War Department in Hawaii will exercise control over German aliens, the office of G-2, with the approval of the Commanding General of the Hawaiian Department, has decided to deal with these aliens, as outlined in my letter to the Bureau of November 17, 1941. Custodial detention memoranda are being submitted to the Bureau on all of the aliens who are to be seized by the War Department in Honolulu on whom they have not heretofore been submitted.

This office feels that insofar as the German and Italian alien situation is concerned, there can be no improvement since each and every German and Italian alien in the Hawaiian Islands is known and arrangements have been effected by the War Department through the assistance and cooperation of this office in furnishing them the names of such individuals, for the specific handling of each and every individual alien German and Italian in the Hawaiian Islands, as outlined in my letter of November 17, 1941.

A similar compilation of the names of Japanese aliens and citizens of Japanese ancestry was furnished to the Bureau in connection with the control of Japanese aliens in the event of war between the United States and Japan which was transmitted to the Bureau with my letter of November 22, 1941, captioned "Internal Security, Custodial Detention, Japanese Aliens." As pointed out in this letter, the names included in these annexes attached to the plans under which they will be seized are those Japanese aliens and citizens of Japanese ancestry for whom custodial detention memoranda have been submitted by this office to the Bureau.

I have kept myself currently informed at all times as to the identity and number of persons recommended for custodial detention by this office and this information has been properly classified according to existing Bureau instructions.

The Bureau will observe from my letter of November 22, 1941, and my letter of December 4, 1941, as a supplement thereto, entitled "Internal Security, Custodial Detention, Japanese Aliens" that there are now a total of 338 Japanese aliens to be seized under the respective plans outlined therein. It also includes 9 American citizens of Japanese ancestry. The Bureau will also observe from Exhibit A to my letter of November 17, 1941, entitled "Internal Security, Custodial Detention, German and Italian Aliens" that a total of 80 alien Germans and 29 alien Italians have been listed for custodial detention and seizure by Army authorities. This figure is arrived at by deleting the exceptions listed in paragraphs 4, 6 and 8 of the memorandum entitled "Seizure and Detention Plan" attached to my letter from the total number of German and Italian aliens listed in Exhibit A to said letter.

Director

12/4/41

It is true that investigative reports have not been submitted in every case but such reports are being prepared. However, the custodial memorandum submitted on each subject was based on information already in the file which was obtained through the general survey of Japanese activities in the Hawaiian Islands and other investigations which have not been reported by investigative report in the individual case file.

The War Department will control the enemy alien population in the Hawaiian Islands. The method and manner of such control, as has been agreed upon by the War Department in Hawaii, is outlined in my letter of November 22, 1941, and the enclosures attached thereto. Since there are over 41,000 Japanese aliens in the Territory of Hawaii, it is obvious that the War Department would not and could not seize approximately a tenth of the population of the Hawaiian Islands and place that number in concentration camps. Furthermore, there are approximately 115,000 American citizens of Japanese ancestry which makes a total, in round figures, of 155,000 people in the Territory of Hawaii of Japanese ancestry against a total population of 430,000. Therefore, the seizure of Japanese aliens in Hawaii is a matter of selectivity. This has been gone over carefully and thoroughly with representatives of Military Intelligence in Hawaii and it is the considered opinion of this office and the Office of Military Intelligence in Hawaii that if the leadership of the Japanese alien population is seized, that, of itself, will break the backbone of any Japanese alien resistance or organized attempt at interference. The Japanese alien, without leadership, can not and will not operate effectively against the internal security of these islands. Those aliens who have been listed for custodial detention comprise the alien leadership in Hawaii in every branch of alien activity, namely: businessmen, consular agents, Japanese language school teachers and principals, Buddhist and Shinto priests, and others of no particular affiliation but who by reason of their extreme nationalistic sentiments would be a danger to our security as well as others who have seen Japanese military service.

This office, through its Special Agent in Charge, is in entire agreement with the plans which the Army has formulated for the handling of the enemy alien in Hawaii and has collaborated with the Army here in perfecting these plans.

In selecting the custodial detention subjects in this field division, this office has at all times had the full cooperation

Director

12/4/41

of the Office of Military Intelligence and the Office of Naval Intelligence and has received full and complete information concerning subjects which they had heretofore regarded as being persons who should be taken into custodial detention in the event of war. As a matter of fact, early in 1940, this office received from the Office of Military Intelligence and the Office of Naval Intelligence the names and addresses of all the persons whom they considered dangerous to the internal security of these islands and who should be picked up for custodial detention in the event of war, involving the United States and Japan and the other axis powers. It also received at that time the names and addresses of individuals who were considered less dangerous and who should be placed under surveillance in the event of war. Both the Office of Naval Intelligence and the Office of Military Intelligence have continued since that time to furnish the names of those individuals whom they consider dangerous to the internal security of the United States and who should be considered for custodial detention as those names have come to their attention. This office has opened investigative cases on all of these individuals and as the investigations are completed, custodial detention memoranda have been, and will be, submitted in the cases where the information justifies it. Custodial detention memoranda will be submitted to the Bureau promptly as justified in current investigations. These will be on individuals who have been considered less dangerous. The primary thought in this project at the Honolulu Division was first to be sure that the leadership of the Japanese alien populace was taken care of and this has been done through the submission of custodial detention memoranda which include membership in the organizations heretofore mentioned. Custodial detention memoranda will be submitted to the Bureau daily as they are prepared at this office.

This office will forward to the Bureau a weekly summary of all persons listed for custodial detention divided into nationalities, both citizen and alien. This summary will be a supplement to my letters of November 17 entitled "Internal Security, Custodial Detention, German and Italian Aliens" and my letter of November 22, 1941, entitled "Internal Security, Custodial Detention, Japanese Aliens" and will classify the individuals reported under the respective plan of seizure which will govern them.

Director.

12/4/41.

The plan formulated by the military authorities for handling the enemy aliens in Hawaii is based on a comprehensive knowledge of the situation which has been gathered by this office over a period of two and one-half years and the knowledge which the military intelligence has gained over a period of many years in its operations in the Hawaiian Islands. It is intelligent and represents the thinking of this office, the Commanding General of the Hawaiian Department and the officers of G-2, and has been designed in the light of that knowledge and the effect of such actions on the civil populace.

The progressive stages outlined in my letter of November 22, with respect to the Japanese alien populace, are an intelligent approach to the situation and are calculated to obtain maximum results with minimum disturbances in the civil community. It is further calculated to preserve and maintain the respect of the alien populace in the constituted authorities and to maintain the loyalty of the vast majority of the second and third generation Japanese without alienating either group.

Very truly yours,

R. L. SHIVERS,
Special Agent in Charge.

It is true that investigative reports have not been submitted in every case but such reports are being prepared. However, the custodial memorandum submitted on each subject was based on information already in the file which was obtained through the general survey of Japanese activities in the Hawaiian Islands and other investigations which have not been reported by investigative report in the individual case file.

The War Department will control the enemy alien population in the Hawaiian Islands. The method and manner of such control, as has been agreed upon by the War Department in Hawaii, is outlined in my letter of November 22, 1941, and the enclosures attached thereto. Since there are over 41,000 Japanese aliens in the Territory of Hawaii, it is obvious that the War Department would not and could not seize approximately a tenth of the population of the Hawaiian Islands and place that number in concentration camps. Furthermore, there are approximately 115,000 American citizens of Japanese ancestry which makes a total, in round figures, of 155,000 people in the Territory of Hawaii of Japanese ancestry against a total population of 430,000. Therefore, the seizure of Japanese aliens in Hawaii is a matter of selectivity. This has been gone over carefully and thoroughly with representatives of Military Intelligence in Hawaii and it is the considered opinion of this office and the Office of Military Intelligence in Hawaii that if the leadership of the Japanese alien population is seized, that, of itself, will break the backbone of any Japanese alien resistance or organized attempt at interference. The Japanese alien, without leadership, can not and will not operate effectively against the internal security of these islands. Those aliens who have been listed for custodial detention comprise the alien leadership in Hawaii in every branch of alien activity, namely: businessmen, consular agents, Japanese language school teachers and principals, Buddhist and Shinto priests, and others of no particular affiliation but who by reason of their extreme nationalistic sentiments would be a danger to our security as well as others who have seen Japanese military service.

This office, through its Special Agent in Charge, is in entire agreement with the plans which the Army has formulated for the handling of the enemy alien in Hawaii and has collaborated with the Army here in perfecting these plans.

In selecting the custodial detention subjects in this field division, this office has at all times had the full cooperation

Director

12/4/41

of the Office of Military Intelligence and the Office of Naval Intelligence and has received full and complete information concerning subjects which they had heretofore regarded as being persons who should be taken into custodial detention in the event of war. As a matter of fact, early in 1940, this office received from the Office of Military Intelligence and the Office of Naval Intelligence the names and addresses of all the persons whom they considered dangerous to the internal security of these islands and who should be picked up for custodial detention in the event of war, involving the United States and Japan and the other axis powers. It also received at that time the names and addresses of individuals who were considered less dangerous and who should be placed under surveillance in the event of war. Both the Office of Naval Intelligence and the Office of Military Intelligence have continued since that time to furnish the names of those individuals whom they consider dangerous to the internal security of the United States and who should be considered for custodial detention as those names have come to their attention. This office has opened investigative cases on all of these individuals and as the investigations are completed, custodial detention memoranda have been, and will be, submitted in the cases where the information justifies it. Custodial detention memoranda will be submitted to the Bureau promptly as justified in current investigations. These will be on individuals who have been considered less dangerous. The primary thought in this project at the Honolulu Division was first to be sure that the leadership of the Japanese alien populace was taken care of and this has been done through the submission of custodial detention memoranda which include membership in the organizations heretofore mentioned. Custodial detention memoranda will be submitted to the Bureau daily as they are prepared at this office.

This office will forward to the Bureau a weekly summary of all persons listed for custodial detention divided into nationalities, both citizen and alien. This summary will be a supplement to my letter of November 17 entitled "Internal Security, Custodial Detention, German and Italian Aliens" and my letter of November 22, 1941, entitled "Internal Security, Custodial Detention, Japanese Aliens" and will classify the individuals reported under the respective plan of reference which will govern them.

12/4/41.

Director.

The plan formulated by the military authorities for handling the enemy aliens in Hawaii is based on a comprehensive knowledge of the situation which has been gathered by this office over a period of two and one-half years and the knowledge which the military intelligence has gained over a period of many years in its operations in the Hawaiian Islands. It is intelligent and represents the thinking of this office, the Commanding General of the Hawaiian Department and the officers of G-2, and has been designed in the light of that knowledge and the affect of such actions on the civil populace.

The progressive stages outlined in my letter of November 22, with respect to the Japanese alien populace, are an intelligent approach to the situation and are calculated to obtain maximum results with minimum disturbances in the civil community. It is further calculated to preserve and maintain the respect of the alien populace in the constituted authorities and to maintain the loyalty of the vast majority of the second and third generation Japanese without alienating their group.

Very truly yours,

R. L. SHIVERS,
Special Agent in Charge.

Re: GERMAN AND ITALIAN ALIENS
TERRITORY OF HAWAII

The Honolulu Field Division recently submitted a list setting forth the names of 103 German aliens recommended for custodial detention. Of this number, 57 are male, and 46 female.

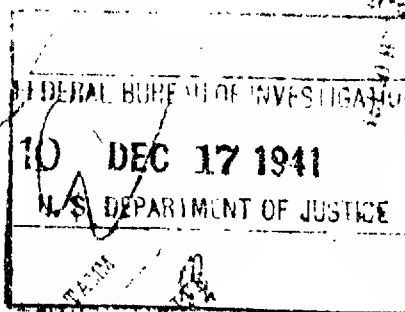

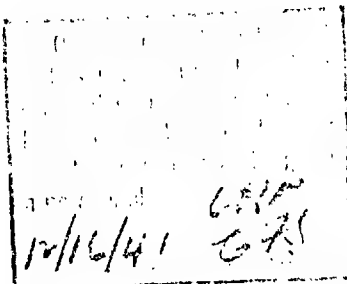

With reference to Italian aliens, the Honolulu Field Division forwarded a list setting forth 28 Italian aliens of which 19 are males and 10 females.

SAC Shivers obtained the names of both the German and Italian aliens from G-2 who stated that these individuals would be apprehended in the event of a declaration of war. This list was submitted during the latter part of November, 1941, and no custodial detention cards have been made on these individuals.

MEMORANDUM FOR MR. TOLSON
MR. TAMM
MR. LADD
MR. TRACY

Mr. Shivers called and asked if I had received his two messages of yesterday sent through code and by radio. I told him I had received them and they were very good. He said he would be able to give me more additional on that today.

Mr. Shivers said the MID, through the War Department in Washington, has ordered out there about the people who were picked up. He asked that I tell them that the Boards are being organized and everything is going to operate under that proclamation; that it is just a question of now setting up the mechanics. Mr. Shivers said that as I know, the custodial detention men were picked up either by the FBI and the military under General Short.

I advised Mr. Shivers that the War Department has told me they were wiring for a report from the Commanding General out there as to the status of those arrests, and asked that I arrange to have him, Mr. Shivers, make available to the General any facts or figures that would enable him to make this report, and I told the War Department that I would do this.

Mr. Shivers said he was taking over approximately fifteen hundred feet of office space. I told him this was all right. He said it will be in the same building and a continuation of what they have.

I advised Mr. Shivers that I was not sending Mr. Gurnea to Hawaii; that I was having Mr. Gurnea remain on the West Coast in a roving capacity. I told Mr. Shivers to continue to function as he has done in the past. I told him we would be unable to send him any men because there is no way of getting them there. He said he understood.

Mr. Shivers said he was going to recommend about five men from there to be hired as Agents. He said any of them he recommends will be of the type we want as Agents. I suggested to him that these men be put in with the official title of Special Employee rather than make them full-grade Agents. He said this would be done. I told him to write in to me the names and the justification for these men and we would send him the authority.

Memo for Tolson, Ladd and Tracy

Mr. Shivers talked to me about the tying up of two or three of his men there and one stenographer on these telegrams which are coming out there which he knows I did not mean to be sent to that office. These are routine telegrams and tied them up considerably. I told him I would take this up and iron it out, that I have instructed these be filtered down considerably and only the absolutely necessary things are to be sent to him. He said they haven't stopped as yet.

He said if there is any more information I want he can give it to me in this code. I told him there was nothing more necessary at the present time, and for him to send any more in by radio.

I asked Mr. Shivers if he has seen Secretary Knox and he said he has not.

MEMORANDUM FOR MR. TOLSON
MR. TAMM
MR. LADD
MR. TRACY

Mr. Shivers called and asked if there was anything new in regard to the Japanese Consul. I told him the State Department is presently considering this and they have not advised us as to what action they wish taken. I told him, Mr. Shivers, to make certain this man is kept under very close surveillance and to make sure that he does not get away. Mr. Shivers said there are no communications going in or out.

I asked Mr. Shivers if Mr. Mori was taken into custody, and Mr. Shivers said both Mr. and Mrs. Mori have been taken into custody. Mr. Mori says that he now knows - after what took place Sunday morning - what his conversation meant. Mr. Shivers said they can get nothing further from this man, and I advised him to keep on trying to find out if he had instructions as to what to say because both Mr. Mori and the person giving the instructions can be prosecuted. I told Mr. Shivers that as soon as we get word on the Consul we will let him know.

Mr. Shivers advises that MID sent a message out there, and Mr. Shivers said if I would give them the following message they would understand what it means and they would also give me a copy of the message sent out there. "Tell them we are concentrating our efforts on all signal communications, and on everything that has anything to do with signaling." Mr. Shivers said this was in connection with the Consulate matter.

Mr. Shivers said that General Short has issued an order stating that no person is to be placed in custodial detention and that no present prisoner is to be released from custodial detention without Mr. Shivers approval. I told Mr. Shivers this was fine, and for him to exercise this authority very carefully. Mr. Shivers stated that G/2 ONI and FBI are working as one unit, and asked that I so advise G/2.

MEMORANDUM FOR MR. LADD

Inasmuch as the Honolulu Office reported on December 8, 1941 that 391 Japanese aliens had been apprehended, and on December 9, 1941 reported that 345 Japanese aliens and 22 Japanese, who were U. S. citizens, had been apprehended, there appeared a considerable discrepancy in the statistics compiled to report the apprehension.

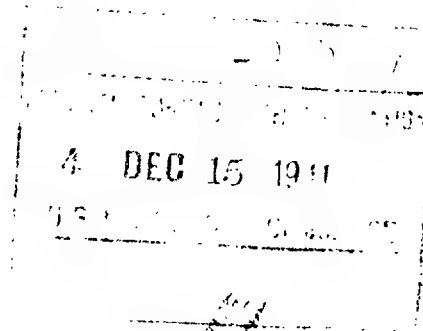

At Mr. Carson's suggestion, I called S. A. Dorwart at the San Diego Office and instructed him to submit the following radiogram to Honolulu:

"RETEL, BUREAU CORRECTS FIGURES INDIVIDUALS APPREHENDED NATIONAL EMERGENCY, SUBDIVIDED BY NATIONALITY, INDICATING CITIZENSHIP OF EACH GROUP. PREVIOUS REPORTS FURNISHED BY YOUR OFFICE REFLECT CONSIDERABLE DISCREPANCY."

SPECIAL AGENT IN CHARGE

Major General Edwin M. Watson
Secretary to the President
The White House
Washington, D. C.

Dear General Watson:

I thought the President and you would be interested in knowing the part played by the Federal Bureau of Investigation in formulating plans for the apprehension of Japanese alien enemies in the Hawaiian Islands and the subsequent carrying out of those plans.

As you know, the situation in the Hawaiian Islands differed from that in continental United States with regard to the handling of this problem since the Islands were subject to the complete military control which has now been put into effect.

The Special Agent in Charge of the Federal Bureau of Investigation office in Honolulu, working in collaboration with the offices of Military and Naval Intelligence, formulated the plans looking to the apprehension and detention of persons considered dangerous to the internal security of the Islands in time of war. These plans differed depending on the location of the theater of war and the immediate danger to the Islands. One plan foresaw the possibility that there might be a general war in the Pacific with the United States Fleet, or a large part thereof, in Hawaiian waters and with the possibility of surprise raids against the Islands, and provided for the seizure and detention of all Japanese Consular Agents without diplomatic status, certain known dangerous Buddhist and Shinto priests, and other known dangerous Japanese aliens among the language school operators, merchants, bankers, and other civilians, as well as certain Hawaiian born citizens of Japanese ancestry. It was estimated by this plan that there would be approximately 342 persons subject to seizure.

This plan further contemplated the taking of precautionary measures relative to the general activities and allegiance of the undetained Japanese who constitute about 37.3 per cent of the total population of the Islands, in order that any among them who might subsequently be deemed dangerous, might be considered for detention.

This plan so well foresaw the actual situation that by 6:00 A.M. on December 10, 1941, less than three days after hostilities began, its primary phase of execution had been completed, resulting in the custodial detention in the Hawaiian Islands of 345 Japanese aliens and 22 citizens of Japanese extraction.

I believe the results which have been achieved to date amply repay and justify the constant effort and planning which we have been engaged in for the past several months in this regard.

With assurances of my highest regards,

Sincerely yours,

MEMORANDUM FOR THE DIRECTOR

RE: JAPANESE ALIENS

Reference is made to my memorandum dated December 10, 1941, wherein there was set out the number of custodial detention cards made for the Continental United States and for the Territory of Hawaii, and also the total number of cards that had been submitted to the Special Defense Unit.

For your information, subsequent to December 7, 1941, the Bureau received from the Special Defense Unit a list of 914 Japanese individuals who were to be apprehended. This list contained 536 Japanese for the Continental United States and 378 Japanese for the Territory of Hawaii. The Bureau was not furnished with the dangerousness classification on any of the 914 individuals listed in the memorandum from the Special Defense Unit.

A spot check was made from the list containing the 914 Japanese individuals and it was ascertained that the dangerousness classification on the following individuals had previously been furnished to the Bureau by the Special Defense Unit:

MEMORANDUM FOR MR. AMBERG, SPECIAL ASSISTANT TO THE
SECRETARY OF WAR.

Pursuant to conversation with you yesterday over the telephone, I am enclosing suggested drafts of warrants to be issued by the Secretary of War authorizing and directing the Federal Bureau of Investigation to arrest certain Japanese and German nationals in the Hawaiian Islands and the Philippine Islands. As I explained to you over the telephone, I think this is desirable in order that there may be no question raised as to the validity of the arrests. You will note that the warrant with respect to the Japanese is dated December 7 and the other warrant is dated December 8. This is because the arrest of the Japanese began on Sunday night.

There may be other warrants necessary later on but my information is that warrants drawn as per the two drafts enclosed will cover the present situation.

If you agree with me in this I suggest you have these warrants properly prepared on the Secretary of War's stationery and have them executed and return to me so that I can file them with the F.B.I.

I am also enclosing copies of the three proclamations issued December 7 and 8 by the President although I presume you already have copies.

Newman A. Townsend,
Acting Assistant Solicitor General.

Dear Judge Townsend:

I have your memorandum of December 9th with proposed warrants from the Secretary of War addressed to the Director of the F. B. I.

I at once took the matter up with the Chief Marshal General and I hope that the execution of what you request may be accomplished. I believe that before the warrants are signed the War Department will seek and obtain a report from the Commanding General of the Hawaiian Department.

I believe it would be appropriate for the Director of the F.B.I. to direct that its representatives in Hawaii turn over to the Commanding General full information, list and records so that he may make report to the War Department.

Yours sincerely,

SAC Shivers called me and stated that things out there were very good.

Mr. Shivers advised that he had received a telegram this morning saying that there was some discrepancy between the telegram he sent in last night in compliance with my instructions, and the verbal information he furnished to me over the telephone. Mr. Shivers stated the information in the telegram was correct, and I told him we would be guided by the wire.

Mr. Shivers stated the figures are: 345, 22, 74, 10, 11, 2, Total 473.

Mr. Shivers said he had received my radio message about the code words and he is trying to work this out now. I told him to use either radio or phone, preferably radio.

I told Mr. Shivers that I understood Mr. Gurnea may be able to start, but nothing was certain. Mr. Shivers stated they were keeping after everything and that he would contact me again later today.

MEMORANDUM FOR THE ATTORNEY GENERAL

I thought you would be interested in knowing the part played by the Federal Bureau of Investigation in formulating plans for the apprehension of Japanese alien enemies in the Hawaiian Islands and the subsequent carrying out of those plans.

As you know, the situation in the Hawaiian Islands differed from that in continental United States with regard to the handling of this problem since the Islands were subject to the complete military control which has now been put into effect.

The Special Agent in Charge of the Federal Bureau of Investigation office in Honolulu, working in collaboration with the Offices of Military and Naval Intelligence, formulated three plans looking to the apprehension and detention of persons considered dangerous to the internal security of the Islands in time of war. These plans differed depending on the location of the theater of war and the immediate danger to the Islands. One plan foresaw the possibility that there might be a general war in the Pacific with the United States Fleet, or a large part thereof, in Hawaiian waters and with the possibility of surprise raids against the Islands, and provided for the seizure and detention of all Japanese Consular Agents without diplomatic status, certain known dangerous Buddhist and Shinto priests, and other known danger to Japanese aliens among the language school operators, merchants, bankers, and other civilians, as well as certain Hawaiian born citizens of Japanese ancestry. It was estimated by this plan that there would be approximately 342 persons subject to seizure.

This plan further contemplated the taking of precautionary measures relative to the general activities and allegiance of the undetained Japanese who constitute about 37.3 per cent of the total population of the Islands, in order that any among them who might subsequently be deemed dangerous, might be considered for detention.

This plan, which was formulated and agreed upon principally as a result of suggestions made by the Special Agent in Charge of the Honolulu office of the Federal Bureau of Investigation, so well foresaw the actual situation that by 6:00 A.M. on December 10, 1941, less than three days after hostilities began, there had been custodially detained in the Hawaiian Islands 345 Japanese aliens and 22 citizens of Japanese extraction.

I believe the results which have been achieved to date amply repay and justify the constant effort and planning which we have been engaged in for the past several months in this regard.

THE DIRECTOR

Mr. Shivers called from Honolulu, advising that it was approximately one hour until daylight there. He stated that they were expecting another big raid and that, as a matter of fact, the planes were reported to be coming in at that time. He stated that it appeared that it would probably be the biggest raid yet. He stated that the civilian population was calm; that there had been no sabotage perpetrated as yet, and that all of the Bureau's staff was all right.

He advised that at daylight or at approximately 11:15 A.M., our time, he, in cooperation with the military authorities, would take into custody all German and Italian aliens on their suspect list in the Hawaiian Islands. He inquired as to the authority for such procedure, and he stated that it was being done at the instruction of the Commanding General under his authority arising from the declaration of martial law.

Mr. Shivers advised that, in connection with the arrest of his Japanese suspects, the following numbers were in custody on the Islands indicated:

Oahu - 200
Hawaii - 62
Maui - 59
Kauai - 43

Total 384

SUBJECT: General Memorandum on Hibeis on .hui.

Prior to the period of this investigation (21 October - 27 October 1942) 15 Kibei out of 42 investigated were placed in Custodial Detention and have been interned on recommendations of the Kauti Internment Hearing Board.

Out of 27 cases investigated, during the period covered by this report, 13 were recommended for custodial detention by the Naval Intelligence Board. Three of these were recommended for release by the Board.

Upon recommendations of investigative agents, 3 Sub-Jurats were closed without a hearing.

[illegible]

CONFIDENTIAL

LOYALTY:

Investigations of Kibei fail to reveal anything except a superficial loyalty to this country, a loyalty based upon financial gain rather than love of country. In this respect Kibei loyalty, in the main, can be said to be "functional".

ADVERSE FACTORS:

While Kibei are the victims of circumstances entirely beyond their control, they are potentially one of the most dangerous threats to internal security in America.

CHARACTERISTICS OF KIBEI:

1. Dual citizenship and no effort to expatriate in the past.

2. Spent anywhere from 10 to 20 formative years in Japan.

3. Educated in Japan - no American education.

4. Speak no English.

5. No knowledge of American principles and ideals.

6. No ties, family or financial in America.

7. Strong family ties in Japan.

8. Deeply interested in Japan.

9. Over-idealized Japanese military and political.

10. No sound mental attitude.

11. They tend to live in Japan, under from those who might aid them in espionage, but they, usually, with other Kibei; their predilection for espionage is not shared by other Kibei.

12. Many have been exposed to Shintoism and while most of them deny adherence to this pseudo-religion, it is logical to assume that they have not entirely discarded it even though there are no longer any religious practices in America any longer.

13. Most Kibei are, or have been, in the United States for a long time, and are, or have been, in the United States for a long time.

live, after saving enough money.

REMARKS:

In spite of the potentially dangerous occurrence of this type it is noteworthy that, insofar as is known, no case of subversive action by Kibei has been brought to the attention of authorities.

Their presence in this country, and their possible relationship with certain Japanese authorities before returning to this country, make them never fully innocuous. The mission of Kibei in the United States therefore is not clear and must be regarded with suspicion.

CONCLUSION:

Kibei constitute one of the greatest known threats to internal security and the investigation of this type should be continued.

The cases of those Kibei who are released on recommendation of agents or by the Civil Intelligence Board should be kept open and under surveillance, insofar as is possible.

1. This Kibei investigation was conducted along the same procedure adhered to in the investigations of Kibei on the islands of Oahu and Hawaii. Names of Kibei to be investigated were initially checked against the files of Unit S-2, Office. Records disclosed that three (3) Kibei had been previously interrogated and substantial detention recommended by the Intelligence Board. Bits of information on other Kibei were found on file but they were of no great significance, adversely speaking.

2. Agents were sent out in pairs to contact the Kibei in question and in this connection, their premises were searched. Kibei were located or their whereabouts learned with less difficulties. Services rendered by the officers of the Maui Police Department were of great help. Those Kibei who were contacted, were instructed to report to the office of the S-2, Maui Service Command, Lahaina.

3. The search of homes and personal belongings brought to light no article of extreme pro-Japanese or anti-American nature. However, evidences of articles having been disposed of or destroyed in the past, in the form of blank photograph albums, empty shelves, etc., were observed in a few instances.

4. Kibei investigated were found to be very much similar to those interrogated on the island of Oahu. A large amount of material was uncovered as a result of this investigation. This conclusion could be attributed to the following factors, which were observed in this investigation:

a. Incidents of Japanese extraction on the island are by far most numerous, representing considerably more than half of the total population.

b. The towns on Maui are much larger than those on the island of Oahu, excepting Hilo, and similar to the country towns on the island of Oahu. The Japanese residents are grouped together in one section of these towns and therefore Kibei residing in such environment suffered little discomfort in spite of their un-Americanized state and also failed to make

concerted effort to Americanize themselves or to learn the English language. In such circumstances contacts with other racial groups appear to be limited.

c. Most of the Kibei were agricultural workers and resided in plantation villages in the cane fields or near the Sugar Mill.

d. They were, generally, less crazy and sharp than those Kibei on the island of Oahu and similar to those on the island of Hawaii.

5. Eight cases were considered by the War Intelligence Board on Saturday and Sunday, and of this number, 6 Kibei were recommended for internment.

III

1. The matter compiling the Kibei investigation reports in a single CI-21 form was discussed with Captain Ezra J. Crane. A Kibei report similar to that compiled for the islands of Oahu and Hawaii will be made for this island. Copy of CI-21, VI-1-251c, Kibei report, sent with Captain Ezra J. Crane.

Figure 1. The effect of the concentration of the *Agrobacterium* suspension on the transformation efficiency of *Agrobacterium* strains. The *Agrobacterium* strains were grown in the medium containing 100 mg/l of tetracycline. The cell concentration of the strains was adjusted to 10⁸ cells/ml. The cell suspension was mixed with the plant tissue and the transformation efficiency was determined. The results were expressed as the mean ± SD of three independent experiments.

Dear Sir:

On February 9, 1942, Mr. GEORGE L. An individual memorandum has been prepared on each name submitted by Mr. COLTMAN on which we have additional information to that which has already been submitted in regular report form. These individuals are designated by the sign "A" preceding his name.

MEMORANDUM FOR THE ATTORNEY GENERAL

RE: JAPANESE ACTIVITIES IN THE TERRITORY OF HAWAII

I thought you would be interested in receiving the following information furnished to this Bureau by its Honolulu Office concerning Japanese activities in the Territory of Hawaii.

The alien Japanese residents in the Territory of Hawaii are continuing to obey the General Orders of the Military Governor without protest or demonstration, although, undoubtedly, the sympathies of many of these aliens lie with the Japanese. Alien Japanese in this locality have expressed a desire for peace between the United States and Japan. This view is probably based on the fact that either a Japanese or an American victory would affect the financial status of many Japanese aliens. The alien Japanese and Americans of Japanese ancestry appear to be confident that they will receive fair treatment at the hands of the Military authorities in the event of internment.

Since the commencement of hostilities between the United States and Japan, 608 Japanese, both alien and American-born, have been apprehended for custodial detention and of this number twenty-six aliens and twenty-one citizens have been released. Thus there are now 561 persons of the Japanese race interned. Of the original number apprehended 515 are aliens and ninety-three are citizens. One hundred and sixty-six aliens and fifty-five citizens of the Japanese race are presently interned in the Territory of Hawaii. One hundred and seventy-two Japanese were transferred to the Mainland on February 21, 1942, and 168 on March 21, 1942.

Certain incidents have indicated the possibility that not only alien but citizen Japanese may attempt to give aid and comfort to the enemy should the Japanese army invade Hawaii. This was illustrated in the case on December 7, 1941, the date of the Japanese attack on the island of Oahu. At that time a Japanese fighter plane was forced down on Nihoa, one of the smaller islands of the Hawaiian group whose population is almost entirely native. Ighimatsu Shinichi, an alien Japanese, and Yoshida Harada, an American-born Japanese, attempted to assist the pilot of the disabled plane in recovering his flight instruments. The pilot was killed by a Hawaiian and Harada committed suicide. Harada's body was found by an Internes Hearing Board on January 29, 1942, which concluded that he was apparently loyal to Japan. It may be pointed out that neither of these Japanese had previously exhibited any un-American tendencies and, as far as is known, were law-abiding residents.

At the present time this Bureau, in cooperation with the Military Intelligence Division, G-2, is ascertaining through various confidential sources the identities of alien and American-born Japanese who have filed applications for deferment from conscription in the Japanese army and other documents pertaining to Japanese military service.

Memorandum for the Attorney General

inquiry it was learned that the Japanese hotels in Honolulu prepared documents for filing with the Japanese government, such as birth and death records, applications, and other forms pertaining to conscription which the Japanese government requires be filed and recorded. The operators of these hotels contend that this activity is merely business on their part for which they charge the applicant or client a fixed fee. The Bureau is continuing investigation of these operators with the view to proving violations of the McCormick Act of 1938, as amended, requiring the registration of agents of foreign principals. It is believed possible that through the above-described method, the Japanese government has extended its police powers to Hawaii through the means of these hotels although they are without official status.

At the present time the only Japanese language newspapers printed in the Territory of Hawaii are the "Hawaii Hochi" and the "Nippon Jiji" which are Honolulu bi-lingual newspapers, both of which are operated under the supervision of the Military Government.

The Broadcasting Corporation of Japan is heard regularly in Hawaii through a program directed to these Islands. This program is in English and Japanese and consists chiefly of broadcasts relative to the Japanese war activities. Of course, the Military Governor has issued General Orders regarding the possession of short-wave receivers by aliens and others designed to prohibit the listening to these programs by such aliens.

Regarding German activities in this locality, I thought you would be interested to know that there has been no recent activity on the part of the local German population. Since the outbreak of the war, 108 persons of German nationality or sympathy were apprehended for custodial detention. Of this total sixty-eight were aliens and forty were citizens. At this time twenty-seven aliens and one citizen have been released.

There has been no activity on the part of Italian Nationals and sympathizers in the Territory of Hawaii since the commencement of hostilities. Fifteen Italian aliens and two citizens of the Italian race have been apprehended for custodial detention since December 7, 1941; and eight of these aliens were released.

I have also furnished this information to Honorable Adolf A. Berle, Jr., Assistant Secretary of State, Department of State, Washington, D. C.

(S) J. Edgar Hoover

Re: INTERNAL SECURITY;
PERSONS APPROPRIATED FOR CRIMINAL
DETENTION IN THE MOUNTAIN OF GUATEMALA
SINCE DECEMBER 7, 1941.

Dear Sir:

For statistical purposes, there are enclosed three schedules which set forth the number of persons apprehended by military authorities since December 7, 1941, by military authorities at Managua pursuant to orders issued by the Secretary of War.

Schedule "A" reflects that to date 733 persons have been apprehended by military authorities in the Territory of Guatemala and that 33 persons have been released at the discretion of military authorities at Managua. At the present time 302 persons are in criminal detention in the Territory of Guatemala. In addition to this, 307 have been transferred to the National Prison at February 21, 1942, and 170 on March 21, 1942.

For comparative purposes, there is set forth Schedule "B" the number of inmates as of December 10, 1941, and each of 1942. It will be recalled that, as set forth in Schedule "A", persons apprehended as of December 10, 1941, were designated for criminal detention by this office and were not all apprehended by the direction of this office at the request of military authorities. Persons apprehended by military authorities, with few exceptions, were released in favor of this office. This, however, has not necessarily been the case in persons apprehended by the military authorities in the Territory of Guatemala.

There will be mailed to you in the near future a comprehensive list of all persons detained since December 7, 1941, including

W. J. H. H.

Director

March 30, 1946

These persons are hereby referred to the name, title, and address of each individual will be noted on this list.

Re: INTERNAL SECURITY;
PERSONS APPREHENDED FOR CUSTODIAL
DETENTION IN THE TERRITORY OF HAWAII
SINCE DECEMBER 7, 1941

Dear Sir:

For statistical purposes, there are enclosed three schedules which set forth the number of persons apprehended for custodial detention since December 7, 1941, by military authorities at Honolulu pursuant to powers granted by the Secretary of War.

Schedule "A" reflects that to date 733 persons have been apprehended by military authorities in the Territory of Hawaii and that 83 persons have been released at the direction of the military authorities at Honolulu. At the present time 282 persons are in custodial detention in the Territory of Hawaii. In addition to this, 363 have been transferred to the mainland, 193 on February 21, 1942, and 170 on March 21, 1942.

For comparative purposes, there is set forth on Schedule "B" the number of internees as of December 10, 1941, and March 26, 1942. It will be recalled that, almost without exception, all persons apprehended as of December 10, 1941, were designated for custodial detention by this office and were actually apprehended by or at the direction of this office at the request of the Military Government. Persons subsequently apprehended by military authorities, with few exceptions, were subjects in files of this office. This, however, does not necessarily indicate that these persons were identified by this office as dangerous to the internal security of the United States.

There will be mailed to you in the near future a comprehensive list of all persons interned since December 7, 1941, including

Director

March 30, 1942

these persons subsequently released. The names, addresses, sex and citizenship status of each individual will be noted on this list.

Lt. Colonel George W. Bicknell,
Assistant Chief of Staff, G-2,
Army Contact Office,
Honolulu, T. H.

Re: CUSTODIAL DETENTION.

Dear Sir:

On March 18, 1942, I transmitted to you a list of male aliens between the ages of 15 and 50, who arrived in the Territory of Hawaii during the year 1941. There was a total of 257 persons on that list, the vast majority of whom were Japanese nationals. With the list I also submitted to you a separate memorandum on 73 of the individuals on this list on whom the Federal Bureau of Investigation had previous information.

On February 25, 1942, I transmitted to you the names of 276 American citizens of Japanese ancestry who had filed a formal request with the Japanese Consul General in Hawaii for an extension of their military deferment in the Japanese Army for the year 1942.

I am now transmitting a list of American citizens totaling 568 between the ages of 15 and 59, who arrived in the Territory of Hawaii from Japan during the year 1941. You will observe that the vast majority are citizens of Japanese ancestry. This information was compiled by the office of the Immigration and Naturalization Service in Honolulu under the direction of Mr. GEORGE L. COLEMAN, Assistant District Director. The list of aliens arriving in the Territory of Hawaii during 1941 was also prepared by the Immigration and Naturalization Service office in Honolulu under the direction of Mr. GEORGE L. COLEMAN, Acting District Director.

All of the foregoing information has been transmitted to you with the thought in mind that the individuals of Japanese ancestry named on these lists should be considered as subjects for custodial detention. You will observe that 257 aliens arrived in the Territory of Hawaii during 1941 and that 568 citizens arrived in Hawaii during 1941 from Japan, the vast majority of whom in both cases were individuals of Japanese ancestry.

MAR 27 1942

Lt. Colonel McMahon.

2/20/42.

In addition, there were 275 citizens of Japanese ancestry who applied through the Japanese Consul General in Hawaii for deferment from military service in the Japanese Army for the year 1942. 133 of these individuals reside on the Island of Hawaii, 42 on the Island of Kauai, 9 on the Island of Maui, 6 on the Island of Molokai and 85 on the Island of Oahu. All of the individuals who applied for military deferment are dual citizens holding both American and Japanese citizenship. The information concerning the application which these individuals filed for military deferment was obtained from the records of the Japanese Consulate in Honolulu after December 7, 1941. There is on file at this office a copy of the application filed in each case. The list of those who filed for military deferment is by no means complete as undoubtedly a large number of applications for deferment had been filed with the Japanese Consul General in Honolulu which were sent to Japan before December 7, 1941, and were not of record at the Consulate in Honolulu.

I also furnished you on February 24, 1942, with a list of reports of residence, requests for military deferment, citizenship certificates of immigration, naturalization certificates and reentry permits which had been filed with the Japanese Consulate in Honolulu by the individuals named on this list through the Japanese hotels in Honolulu. This list contains 441 names, 186 of which were those of individuals who had filed reports of residence pertaining to conscription and 35 of which were persons who had made application for conscription deferment outside of Japan. You will observe that in most instances the reentry permit shows that the individual named in the reentry permit arrived in Honolulu on October 23, 1941, and filed the reentry permit with the Japanese Consul on October 24, 1941. This would certainly indicate a disposition on the part of the returning Japanese citizens, as well as aliens, to comply with the regulations of the Japanese Consul General in Honolulu and the dispatch with which they notified the Consul General of their return to Honolulu is indicative of the manner in which they regard their dual status.

It seems to me that there is every reason to doubt the loyalty to the United States of those individuals who recognize their Japanese citizenship by virtue of the fact that they have filed applications for deferment in the Japanese Army. In the event of a successful invasion by the Japanese forces against the islands of Hawaii, all dual citizens in the Hawaiian Islands would be considered subjects of Japan by the invading forces and would be treated as such. Those who have filed application for military deferment with the Japanese Government would automatically be subject to military service in the Japanese forces should they be successful in invading these islands.

Lt. Colonel Bicknell.

3/20/42.

It is realized, of course, that in some instances the parents of the individual may have filed application for military deferment without the knowledge of the child. In such cases as are found, it is believed that the parents should be investigated as to their attitude toward the United States.

Certainly, it would appear that the alien Japanese and the American citizen of Japanese ancestry who arrived in Hawaii during the year 1941 should be objects of grave suspicion.

Since the Military Commander in Hawaii is not responsible for the internal security of the Islands, I feel it incumbent upon the Federal Bureau of Investigation to furnish you with the foregoing information for such action as you deem appropriate.

Very truly yours,

R. L. Sullivan,
Special Agent in Charge.

Thirty Japanese In Hilo Are Arrested

HONOLULU, Feb. 26 (UP).—The army announced today that "about thirty additional Japanese enemy aliens or suspected sympathizers are now being detained at Hilo" on the Island of Hawaii.

The army said they were taken into custody during the past few days.

Included among them were Thomas T. Sakakihara, present representative from the Island of Hawaii to the Territorial Legislature, and Frank T. Ishii, a member of the Hawaii county board of supervisors.

The army announcement was the first official statement regarding the detention of enemy aliens or sympathizers, beyond the disclosure early in the war that several hundred had been taken into custody and a later report that internees would be taken to the mainland.

It also was the first official mention of any Hawaiian political figure in connection with alien activity.

The last census showed that the territory's population was 423,332, of which 157,503 or 37.3 per cent were Japanese or Japanese-American.

Unofficial figures showed that of the 157,503 voters registered for the 1940 election, 40.8 per cent were Japanese or Japanese-American.

This subject, a naturalized citizen due to his having served in U. S. Army during World War I, is a travel tour organizer reputedly on very friendly terms with Japanese Government Officials in Japan. He is also one of the local Japanese who greet and entertain visiting Japanese Naval personnel, and who volunteers his services to this personnel. He is President of the Onomichi Chiho Jin Kai which is reputed to be pro-Japanese and an instrument for the collection of donations to the Japanese Chapter of the Red Cross. He was invited by the Japanese Government to attend the celebration of the 2600th Anniversary of the Founding of the Present Japanese Dynasty but declined this invitation because of the "strain" between the United States and Japan. (Tsutomu Nishi, 10/21/41, Honolulu, T.H., 100-758-7)

Subject has made numerous trips to Japan as an organizer of sight-seeing parties to the Mother Country. He organized one such party to go to Japan in March, 1941, under the name of the Red Cross Kan-Ko-Tan. This latter trip was undertaken on the biddings of the Japanese Red Cross Headquarters in Tokyo which subject visited on his last previous trip. (United Korean Committee, 12/18/40, Honolulu, T.H., 100-758-3)

January 21, 1942

BALTRUSCH made a trip to Germany about six years ago to see his father and mother who are still living in that country. He returned in about three months and seemed favorably impressed with conditions there. He was described as very anti-British and during a discussion of the war between England and Germany admitted his dislike for the British, stating he felt there was some justification for the economic expansion of Germany. (BRUCE CRUICKSHANK, Manager, Insurance Department, New England Mutual Life Insurance Company, Honolulu, T. H., August, 1941; 100-1335-9)

At the present time he has a mother and brothers and sisters residing in Germany. Subject, around June, 1941, questioned a Navy Lieutenant concerning ship movements at Pearl Harbor, attempting to learn what ships were in the harbor and what additional sources of information this Lieutenant might know of in this connection. (Confidential Informant N, August, 1941, Honolulu; 100-1335-9)

ARTHUR BALTRUSCH reported to have indicated a pro-Nazi attitude in general conversations. (Mrs. SYDNEY GRAY, 1134 Kinau Street, Honolulu, 1/23/41; 100-1335-9)

Upon being asked whether he might be called for Navy service, since he was a Reserve, BALTRUSCH stated "no". At the time, a Mr. KARL MEYER, 3180 East Manoa Road, was present and stated, "They wouldn't call a Nazi." (Confidential Informant [redacted] Honolulu, 1/3/41; 100-1335-9)

b7D

BALTRUSCH reported to have argued strenuously in favor of his homeland and its form of government, often going so far as to say the day would come when HITLER's form of rule would become the form of government of the United States; that the whole world is wrong and HITLER alone is right; that this right would eventually rule the world. (Confidential Informant N, Honolulu, December 16, 1941; 100-1335-16)

MEMORANDUM FOR THE BUREAU

January 21, 1942

In 1940, following the showing of the moving picture, "Grapes of Wrath," BALTRUSCH stated, "HITLER wouldn't allow such conditions to exist in his country." Following the first issue of "Mein Kampf" to be released in Honolulu, in early 1941, BALTRUSCH stated, "I got a wonderful understanding of Socialism from reading this book"; also, "Don't you think it would be better if we had a Europe-United States?" Further, he stated that England had been enjoying too much wealth and it was about time the wealth should be distributed and that HITLER had the right idea and would take care of the working class.
